

NordicFlow® Reciprocating RS26

Description

The RS26 brings together all the features you need for a rugged, effective reciprocating saw without the gimmicks. The orbital reciprocating mechanism is specially designed for long term durability and impact resistance. With its pipe vise and straight handle, you will find the RS26 to be an especially effective pipe cutting saw. RS26 is suitable for cutting steel and stainless steel pipes. Mechanical fastening to the pipe functions in two ways. Quick release vise for 1/2" – 2" pipes and chain vise for bigger, 2-1/2" – 6" pipes.

Saw Blade (material):

Description

Reciprocating saw blade 290 mm

Product Code

TO-AGP-TERÄ-290

NordicFlow® Reciprocating RS26

RS26 comes with a double acting pipe holder. Mechanical fastening pipe work in two ways. For smaller pipes you can use a clamp, and for larger – chain tensioner.

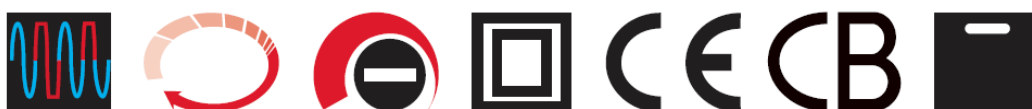

Press, pipe's sizes ½" - 2"

Chain, pipe's sizes until 6"

Technical Specifications

Model	RS26
Product Code	TO-AGP-PUUKKOSAHA
Power	1500W
Voltage	220-240V 50-60Hz
No-load rpm	1000-2100 RPM
Max. cutting capacity	153mm
Stroke length	26mm
Overload protection	Yes
RPM regulator	Yes
Soft start	Yes
Dimensions	491 x 94 x 108mm
Weight	4,35 kg

Note:
